
Epilepsy Emergency Medication Training

A half-day course for teachers, to increase their understanding of epilepsy as a long-term condition, and demonstrate how to administer emergency medication.

The course will be delivered by an experienced Epilepsy Specialist Nurse and will include the following:

- Introduction to epilepsy
- Different types of seizure
- Causes and triggers
- First Aid for convulsive seizures
- Risks including SUDEP and Status Epilepticus
- Practical sessions on administering Buccal Midazolam and Rectal Diazepam

The training will take place at our Lingfield Campus
Cost of training: £50 per delegate

Tuesday 30th April 9:30am – 1:30pm
