Cushion

A large, stylized illustration of a human brain in the background. The brain is surrounded by several jagged, lightning bolt-like shapes of varying sizes. In the upper right corner, there is a circular graphic containing a white cross symbol, similar to a first aid kit. The overall theme is medical and neurological.

Your friend has just been diagnosed with epilepsy, and they are worried about having a seizure in school. What could you say to them to make them feel less worried?

Someone in your class  
has a seizure. What  
should you do to help?

Sometimes stress can trigger seizures. If you had a friend with epilepsy, what could you say to them to help reduce their level of worry in school?
